{ CAREER SUMMARY }

<Web Designer since 2006, Web Developer since 2012, Senior UI Developer since 2015, and Senior Lead Engineer since 2022. Experience in both, the private and the government sector. Working in different industries such as automotive, entertainment, sports, health, and smart payments among others. Implementing Web standards and accessibility in all projects since 2007. />

{ CAREER HISTORY }

[THOMSON REUTERS] [SEP 2022 - PRESENT]
<Web UI Developer />
<Mentoring 2 senior engineers, leading a team of 10 members (FE, BE, UX, QA) in my current POD "Confirmation", and subproducts (Audit, Asset Verification, and Open Banking), a digital solution used by audit firms, banks, law firms to securely verify financial data. />

<Serving as a proxy to connect between Product, Technology, Research, Accessibility, Data, and Design teams. Currently developing using good practices, code quality, and accessibility using tech stack with SASS, HTML 5, CSS 3, Angular, NodeJS, Webpack, Git, Azure, and Docker. />

<Working on features and bug fixing to create an internal Design System called "Saffron" using best practices, Accessibility, and tech stack with Web Components, Microsoft FAST, LESS, HTML 5, CSS 3, Rush, Rollup, Angular, ReactJS, Git, Unit, Storybook, Figma, and Design Patterns. Integration, and e2e testing with Playwright. />

<Contributing with other PODs like Indirect Tax, and Checkpoint Engage with .Net framework />

[GLOBANT] [NOV 2015 – SEP 2022]
<Web UI Developer />
<Mentoring 3 people, leading 3 members of the pod to create new features & bug fixing for Plastiq, an account that manages cash flow, automates payables, and accepts payments with no fees. Investigating spikes, supporting the product team with UX topics. Developing and using good practices and React patterns with HTML 5, CSS 3, JavaScript ES6, React, Material UI for React, PropTypes, Styled Components, NodeJS, MySQL, Git, AWS, Docker. I also implemented architectural design for two apps, unit tests using Jest and React testing library. />

<Creating new features and bug fixing for the main UI of HBO Max. Investigating spikes, supporting the product team with UX topics. Developing using good practices and React patterns with HTML 5, CSS 3, JavaScript ES6, React, Storybook, PropTypes, Styled Components, NodeJS, GraphQL, Webpack, NextJS (custom size), Git, NPM modules (one NPM module for component) semantic versioning, Drupal, Bull, AWS, Docker. I also try to implement linters and unit tests using ESLint, Husky, and Jest since they are the basis of any project. />

<Developing new features, and bug fixing in the main UI of HBO. Using good practices and React patterns with HTML 5, CSS 3, JavaScript ES6, Accessibility, React, PropTypes, PostCSS, FlowJS, Webpack, Git, NodeJS, Kubernetes, Docker. I also got linters and unit tests implemented using ESLint, Husky, and Jest. />

<Working with Aeris account on new features, unit tests and bug fixing mostly in User Interfaces (UI) but sometimes in Backend (FE). Using HTML 5, CSS 3, JavaScript ES6, AngularJS, React, Redux, Redux logic, Jest, Sass, Underscore, for UI. For BE, Git, NodeJS and a little bit of Spring Boot. Also using Agile methodology as a development process. />

<Building new features, unit tests and bug fixing for Citi Banamex account in Credit Card Portal (CCP) project. Using HTML 5, CSS 3, JavaScript ES5, AngularJS, Less and Backbase for User Interface (UI), Mocha, Chai, Karma, Istanbul, protractor for unit tests and Agile />

<On SEO Team working on schemas, titles, links, also in IBM CMS called OWCS, but mostly in Rendering repository, which pre-renders the content in the backend with node, underscore and handlebars for cars.com. Also making look & feel changes and unit tests of the referred sections. Using Angular, Mocha, Stylus, Git, Gulp, Bower, NPM. />

[SECCIÓN AMARILLA] [SEP 2013 – NOV 2015]
<Web Developer />
<Web Performance Optimization in Yellow Pages and Menumania Portals, Web Apps and Blogs. />

<Integration of microformats, openGraph and semantic tags in Yellow pages and Menumania Portals, Blogs, Apps and Web Apps to SEO improvement. />

<Implementation of Web Accessibility in Sección Amarilla and Menumania Portals. Launch Sección Amarilla and, Menumania Blogs. />
